## Seasons Greetings From Herbrep.com

# VITAMIN C

## 555 mg

**COMPOSITION:** Each ampoule contains

- 555 mg of **vitamin C**.
- Bioflavonoids,
- **pectin**,
- natural orange juice.

**DOSAGE:** 1 to 2 ampoules per day.

**ACTION :**

This is for the normal development and maintenance of bones, cartilages, teeth, and gums. It protects the other vitamins. It intervenes in the oxydoreduction phenomena. It is antitoxic. It has

desensitizing properties. It has a healing factor. It is essential to collagen formation. It promotes resistance to viral infections synthesis of antibodies. It increases work and output capacity.

#### Advantages of Vitamin C -555 mg:

- It is good tasting, therefore, easy to administer even to children.
- It is liquid and so it goes much faster into the blood system, and therefore, results are quick and efficient.
- It has been proven that Vitamin C alone, cannot fight scurvy which is due to a double avitaminosis of C and P. Therefore Vitamin P, also known as Vitamin C2 or bioflavonoid is found in citrus fruits such as oranges, lemons and grapefruit. Orange base and especially the presence of pectin and bioflavonoids create a synergy with the vitamin C.
- To act as a preserving factor of vitamin C. Therefore we need lesser quantities of Vitamin C.
- To slow down urinary elimination, therefore delayed effect and a longer action.
- To protect Vitamin C from a fast oxidation.
- To enable its stockage in the suprarenal glands.
- To enable to fight diverse capillary permeability syndromes. (hemorrhages).
- The foursome vitamin C, Bioflavonoids, Pectin, Orange Juice:
- Increase Vitamin C action.
- Delays urinary elimination.
- Protects Vitamin C from oxydation.
- Stocks it in suprarenal glands.

Thanks **1294917** For the hit
